

Eileen Gigliotti, RN, PhD

Professor
Department of Nursing
The Graduate Center
College of Staten Island
City University of New York, NY, USA

Neuman Systems Model Trustee since 2002

Areas of expertise with the NSM

Use of the NSM as a research model with particular emphasis on testing the complex NSM propositions using statistical methods.

Linking the NSM with nursing's taxonomies (NANDA, NIC, and NOC) to advance theory based clinical practice in advanced practice nursing.

Area of interest in providing consultations with the NSM

Relational statement analysis: using the correct statistic to test the particular NSM relational statement of interest
